GALPIN FORD AND HENRIK FISKER UNVEIL ROCKET SPEEDSTER CONCEPT AT 2015 PEBBLE BEACH CONCOURS D’ELEGANCE

Acclaimed Automotive Designer and Visionary Customizer turn the Ultimate Mustang into a Stunning Speedster

MONTEREY, Calif. (August 15, 2015) – Galpin Auto Sports and Henrik Fisker unveiled the latest iteration of the “Ultimate American Muscle Car” today at the 2015 Pebble Beach Concours d’Elegance; the 2015 Rocket Speedster Concept. Following a short drive onto the legendary Pebble Beach Concept Lawn, Henrik Fisker and Galpin Motors President, Beau Boeckmann introduced the convertible carbon fiber-bodied super-Mustang, intended for low-volume production. The car was featured as one of only a few special designer cars in front the Lodge at Pebble Beach.

Featuring a fully integrated carbon fiber speedster cover that transforms the four-seat convertible into a two-seat speedster, this new edition Rocket maintains exceptional visual drama and performance with the top up or down. As with the Rocket Coupe, the Concept carries a carbon fiber hood feeding air into the supercharged 725-hp V8 engine through two sculpted air intakes, aiding the grill and front splitter in maintaining optimal cooling and aerodynamics.

Constructed by GFMI Metalcrafters, Inc. in Fountain Valley, Calif., headed by CEO Mike Alexander, the handcrafted bodywork integrates a number of key aerodynamic elements to channel airflow for necessary cooling and downforce. Two additional air scoops, mounted on the rear fenders ahead of the wheels, help direct fresh air to cool oversized 15-inch Brembo Gran Turismo high performance brakes. The entire package sits on special 21-inch metallic red color-keyed five-spoke alloy wheels.

“When I worked on the Rocket Speedster project with Beau, the creativity sparks were constantly in the air,” said Fisker. “When I was designing the speedster cover, I gave it extreme sculpture and dynamic lines that flows with the muscular body of the Rocket and created a new interior graphic to go with it. I’m very excited to unveil the Rocket Speedster at the Pebble Beach concept lawn with Beau.”

The inspiration from the 1960s and early 1970s specialty pony cars remains completely intact, while the all carbon fiber bodywork has been thoroughly reworked to accentuate the convertible’s aggressive muscular proportions. The Concept’s exterior is finished in a deep metallic red, highlighting visible polished carbon fiber stripes extending from the imposing hexagonal carbon fiber grill to the speedster cover featuring exposed carbon fiber air outlets. To reduce air turbulence, the speedster cover’s air outlets are also equipped with an integrated mesh directly behind the driver and passenger, allowing air to pass smoothly over the redesigned lower rear deck.
“Henrik’s original design sketches for the Rocket gave me chills and the convertible is no different,” said Beau Boeckmann, President of Galpin Motors. “This Speedster Concept has added another layer of style to the car without losing an ounce of the incredible beauty of the coupe. It really has been a dream collaboration, combining Henrik’s design execution with the performance and customization expertise of the Galpin Auto Sports team.”

The original Rocket Coupe design was first unveiled as a prototype at the 2014 Los Angeles Auto Show, receiving widespread praise from both the international media and the public. Just four and a half months later, the first production model of the Rocket Coupe debuted at the 2015 Amelia Island Concours d’Elegance, representing the first example of the limited production run.

Just like its coupe predecessor, the Rocket Speedster is not a one-off concept. Interested buyers will have the option of purchasing a car through Galpin Ford directly or through one of several hand-picked dealers across the country and around the world.

About Galpin Auto Sports
Galpin Auto Sports, located at 15600 Roscoe Blvd. in Van Nuys offers customizing and personalizing services on all new and pre-owned vehicles including collector and classic cars. For more information on Galpin Auto Sports’ unique products and services, please contact GAS Operations Manager, Brandon Boeckmann (brandonb@galpin.com), at (877)-GO-GAS-GO or visit the website at www.galpinautosports.com.

About Galpin Motors
Galpin Motors, home to the world’s largest volume Ford dealership for the 25th consecutive year, was founded in 1946 and is headquartered in Los Angeles’ San Fernando Valley. Galpin is comprised of a family of quality automobile brands that include Ford, Lincoln, Honda, Mazda, Subaru, Volkswagen, Volvo, Jaguar, Lotus and Aston Martin. For additional information on Galpin Motors and Galpin Auto Sports, contact Marketing Manager Jeff Skobin at 818-778-2540/jeff@galpin.com, visit the dealer at 15505 Roscoe Blvd., North Hills, Calif. 91343, like on Facebook at Facebook.com/GalpinMotors or visit www.galpin.com.

About Henrik Fisker
Henrik Fisker is an entrepreneur and one of the world’s leading automotive designers. Previously Fisker founded Fisker Automotive in 2007, where he launched the world’s first premium plug-in hybrid, the Fisker Karma. Best known among his creations are BMW Z8, Aston Martin DB9 and Aston Martin V8 Vantage. Amongst his latest creations is also the Lauge Jensen Viking motorcycle. Originally from Denmark Fisker is now based in Los Angeles, and is the Founder of HF Design, a design and technology company with various automotive, technology and consumer product ventures underway. More information can be found at www.henrikfisker.org.
